

# Smart Factory Institute

at Volkswagen Academy, Chattanooga, TN

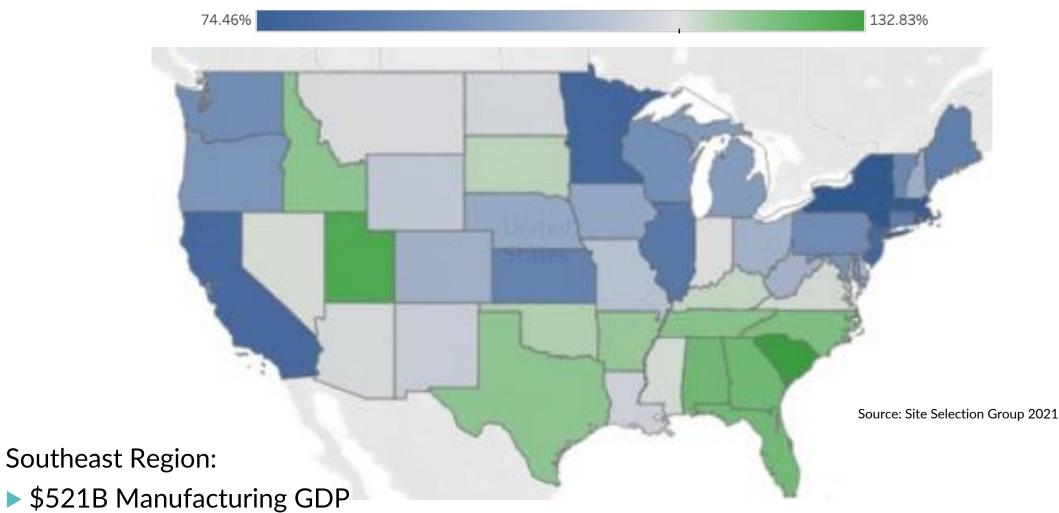

Operated by Peak Performance Inc., in collaboration and partnership with the Volkswagen Academy

# Best States for Manufacturing

Min. Total Index

Over 55,000 Manufacturers

### Smart technology and a skilled workforce needed to meet demand

**\$2.2 trillion** Added to domestic GDP by 2025 by Industry 4.0

86%

Of manufacturers believe they are doing everything they can to adopt smart factory technology.

25%

Of manufacturers are confident that their workforce will have the adequate skills .

US Manufacturers who are not prepared for Industry 4.0 adoption

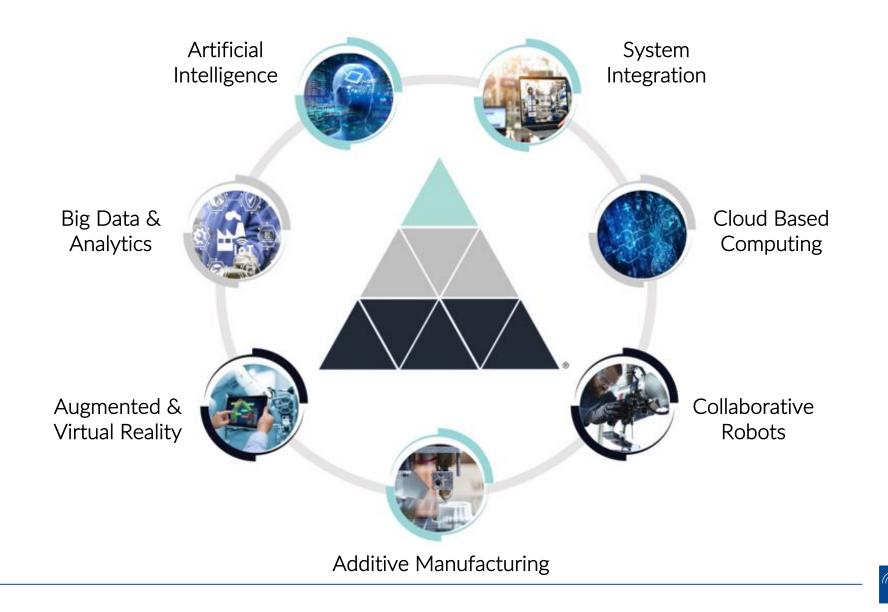

### Driving Industry 4.0 via technology solutions and workforce development

# Factory of the Future: Smart Factory

Smart Factory Institute

# Part of the global network of Deutsche Messe Technical Academies

- Demonstrations of innovative technologies to optimize production processes
- Incumbent worker training and certifications for the manufacturing community
- > Partnerships with business, government agencies, educational partners and professional organizations

# Volkswagen Academy provides infrastructure

VOLKSWAGEN ACADEMY

5. Lean Center

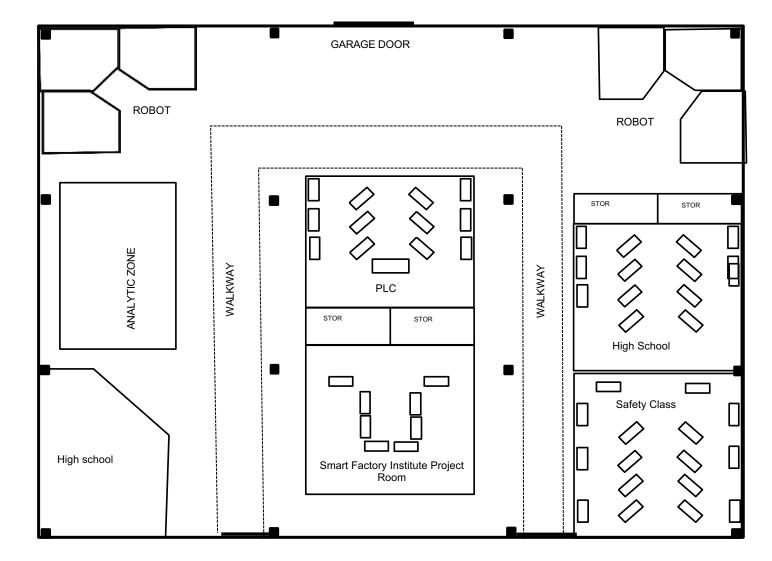

### Smart Factory Institute: Showcase technology in Automation Center

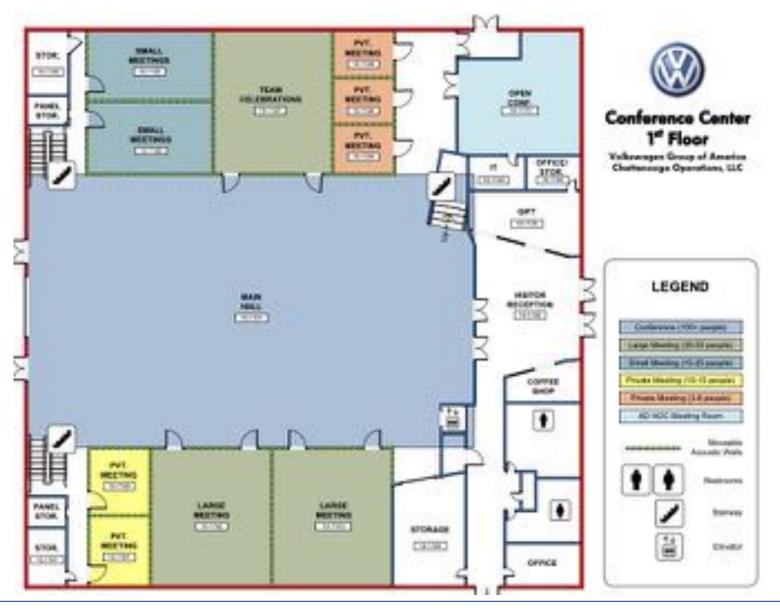

# Opportunity for events at the VW Conference Center

# University of Tennessee Chattanooga I-O Psychology Partnership

#### Industrial-Organizational (I-O) Psychology is...

the scientific study of how people function within work organizations. The UTC-IO program is partnering with the Smart Factory Institute to:

- Evaluate how Industry 4.0 changes manufacturing work
- Define labor and skills gaps that need to be addressed
- Develop new techniques for effectively working in manufacturing
- Develop skills assessments to determine training needs
- Develop tools to evaluate impact of SFI initiatives

# Technology Partner opportunities to reach new customers

#### Access to Manufacturers

- Southeast Region is top contributor to manufacturing GDP at \$521K with over 55,000 manufacturers
- Major Asian, European, and U.S Automotive manufacturing within 250 mi radius
